

# FIRE HARDENING AND DEFENSIBLE SPACE DISCLOSURE AND ADDENDUM (C.A.R. Form FHDS, Revised 6/25)

This is a disclosure and addendum to the Purchase Agreement, OR ☐ Other \_\_\_\_\_ ("Agreement"), dated 05/30/2026, on property known as 9985 WENDELL RD, MOUNTAIN RANCH, CA, 95246 ("Property"), in which David Allen Hopkins is referred to as Buyer, and Marshall Graham Guthrie 06/08/26 Marshall Graham Guthrie is referred to as Seller.

1. **LAW APPLICABILITY:** If this property does not meet the conditions stated in **paragraph 1A or 1B**, there is no requirement to complete the subsequent applicable paragraphs.

**A. Home Fire Hardening Disclosure:** The Notice and disclosure of vulnerabilities in **paragraph 2** are only required for sellers of residential properties if: (i) the Property contains one to four units; (ii) the seller is required to complete a Transfer Disclosure Statement (C.A.R. Form TDS or MHTDS); (iii) the Property is located in either a **high or very high** fire hazard severity zone; and (iv) the improvement(s) on the Property were constructed before January 1, 2010. IF ANY OF THESE FOUR CONDITIONS IS NOT MET, SELLER DOES NOT HAVE TO ANSWER THE QUESTIONS IN **PARAGRAPH 2B AND 2C**.

**B. Defensible Space Compliance:** The disclosures and requirements specified in **paragraph 3** are only required for sellers of residential properties if: (i) the Property contains one to four units; (ii) the seller is required to complete a Transfer Disclosure Statement (C.A.R. Form TDS or MHTDS); and (iii) the Property is located in either a **high or very high** fire hazard severity zone. IF ANY OF THESE THREE CONDITIONS IS NOT MET, **PARAGRAPH 3** DOES NOT HAVE TO BE COMPLETED.

**C. Fire Hazard Severity Zone Status:** It may be possible to determine if a property is in a **high or very high** fire hazard severity zone by consulting with a natural hazard zone disclosure company or reviewing the company's report. This information may also be available through a local agency where this information should have been filed. Cal Fire has a "Fire Hazard Severity Zone Viewer" where you can input the Property address to determine which fire hazard zone, if any, that the Property is located in. A link to the viewer can be found on Cal Fire's website at <https://www.fire.ca.gov/dspace/>.

2. **FIRE HARDENING DISCLOSURE** (☐ Property is built on or after January 1, 2010. Paragraphs 2B and 2C do not have to be completed):

**A. FIRE HARDENING STATUTORY NOTICE:** "THIS HOME IS LOCATED IN A HIGH OR VERY HIGH FIRE HAZARD SEVERITY ZONE AND THIS HOME WAS BUILT BEFORE THE IMPLEMENTATION OF THE WILDFIRE URBAN INTERFACE BUILDING CODES WHICH HELP TO FIRE HARDEN A HOME. TO BETTER PROTECT YOUR HOME FROM WILDFIRE, YOU MIGHT NEED TO CONSIDER IMPROVEMENTS. INFORMATION ON FIRE HARDENING, INCLUDING CURRENT BUILDING STANDARDS AND INFORMATION ON MINIMUM ANNUAL VEGETATION MANAGEMENT STANDARDS TO PROTECT HOMES FROM WILDFIRES, CAN BE OBTAINED ON THE INTERNET WEBSITE [HTTP://WWW.READYFORWILDFIRE.ORG](http://WWW.READYFORWILDFIRE.ORG)".

**B. FIRE HARDENING VULNERABILITIES:** Are you (Seller) aware of the following features that may make the home vulnerable to wildfire and flying embers (Seller is not obligated to explain or clarify their responses to questions **2B(1)-2B(6)**, whether they answer "yes" or "no." Voluntary explanation/clarification is permitted but not required).

- |                                                                                                                                                   |                                                                     |
|---------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------|
| (1) Eave, soffit, and roof ventilation where the vents have openings in excess of one-eighth of an inch or are not flame and ember resistant..... | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| (2) Roof coverings made of untreated wood shingles or shakes.....                                                                                 | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| (3) Combustible landscaping or other materials within five feet of the home and under the footprint of an attached deck.....                      | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| (4) Single pane or non-tempered glass windows.....                                                                                                | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| (5) Loose or missing bird stopping or roof flashing.....                                                                                          | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| (6) Rain gutters without metal or noncombustible gutter covers.....                                                                               | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |

Explanation/Clarification: vegetation close to the home and deck

**C. LIST OF LOW COST RETROFITS:** The following is a list of low cost retrofits developed and listed by the California Department of Forestry and Fire Protection (CAL FIRE) and the California Governor's Office of Emergency Services (OES). More information on home hardening is available at [readyforwildfire.org](http://readyforwildfire.org). A list of low cost retrofits with dynamic links can be found at <https://readyforwildfire.org/wp-content/uploads/2025/04/Low-Cost-Retrofit-Flyer-Handout-.pdf>.

**Have you (Seller) completed any of the following low-cost retrofits during the time you have owned the property? (If the retrofit was partially completed or only applied to a portion of the identified feature, or if similar work was performed, or if your response below needs clarification, provide the explanation/clarification below. If you are unsure if the retrofit item was completed or satisfied the conditions specified, check "No", and provide any explanation/clarification below.)**

- |                                                                                                                                                                                                |                                                                     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------|
| (1) Roof replaced with Class A fire-rated roof.....                                                                                                                                            | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| (2) Spaces between roof covering and sheathing blocked with non-combustible materials (bird stops).....                                                                                        | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| (3) Installation of noncombustible gutter cover on gutters to prevent the accumulation of leaves and debris in the gutter.....                                                                 | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| (4) Covered chimney and stovepipe outlets with a noncombustible corrosion-resistant metal mesh screen (spark arrester), with 3/8 inch to 1/2 inch openings.....                                | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| (5) Install ember and flame-resistant vents.....                                                                                                                                               | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| (6) Caulk and plug gaps greater than 1/8-inch around exposed rafters and blocking to prevent ember intrusion into the attic or other enclosed spaces.....                                      | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| (7) Inspect exterior siding for dry rot, gaps, cracks, and warping. Caulk or plug gaps greater than 1/8-inch in siding and replace any damaged boards, including those with dry rot.....       | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| (8) Install weather-stripping to gaps greater than 1/8-inch between garage doors and door frames to prevent ember intrusion. The weather-stripping must be compliant with UL Standard 10C..... | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| (9) Replace windows with multi-paned windows that have at least one pane of tempered glass.....                                                                                                | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| (10) Replace siding or deck using compliant noncombustible, ignition-resistant, or other OSFM Wildland Urban Interface (WUI) Products.....                                                     | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
